

PRESS RELEASE: 25th March 2020

Due to the current situation with COVID-19 and the distancing / isolation procedures being introduced daily including public venue closures, our committee meeting scheduled for Wednesday 25th March 2020 has been cancelled. Also, future events have been put on hold until further notice. As the situation starts to show improvement we will arrange for a committee meeting and organising of events to take place when safe to do so for all concerned.

This is a very unique situation, one not experienced before. The health and safety of our members is paramount hence the difficult decisions we have made to cancel events recently.

When we do get to run an event in the future it will be wonderful and exciting to catch up with everyone and to let those engines roar once again. The main thing is to stay safe and stay well as we all lockdown and wait for this to get under control. Keep updated on the various COVID-19 information available on the news and government websites.

Think about your friends and family members – stay in touch regularly by phone /email /skype etc - it's important to our mental health to communicate with each other, particularly the elderly and isolated, given that we can't meet up in person. Talk to someone in your network and ask for help if you are finding coping with this situation is difficult.

Please do your part to help control this terrible virus and help others in need.

We will get through this and we will celebrate the day when life and motorsport returns to normal.
